**SPRING USA ANNOUNCES THE RELEASE OF THEIR NEWEST LINE OF
COOKWARE**

Naperville, Illinois (September 18, 2009) – Spring USA introduces their newest line of multi-use cookware,  ***Cook & Serveware***. This newest offering is ideally suited for Buffet “Cooked to Order” service. Pieces feature the Spring USA trademark 5-ply, bonded, 18/10 stainless steel for maximum durability. The aluminum core allows for fast, even heat distribution from pan bottom to upper rim. The products unique sealed rim ensures aluminum never comes in contact with your food. This new line of cookware is suited for all heat sources; gas, electric, ceramic & induction. With its elegant design, and rugged durability, this new line of professional cookware makes it perfect for banquet service or display applications.

About Spring USA

Since 1946, Spring USA has soared above the competition by offering the finest products, with our exclusive designs, superior quality and unique detail. Products from Spring USA meet the everyday demands of the world’s top professional chefs. Our product line is unsurpassed when it comes to fit, finish and reliability. Spring USA continues this heritage with Buffet, Induction and Cookware products manufactured to the highest standards.
